# Pre Nursery Kids- World Tiger day

Study of environment in early childhood is learning, respecting our surroundings be it human, plants or animals. Celebration of the World Tiger day in pre- nursery made children understand, it is not only they who have a home and family but also the animals do. They got dressed like Tiger and enjoyed finger painting, painting the face of a Tiger and celebrations ended with a foot tapping tiger dance

Amul doodh peeta hai India' our kindergartners learnt the benefits of drinking milk. The kids cultivated the habit of drinking milk by drinking it along with the teachers for a week.

## Experimenting and wondering how Rain is caused

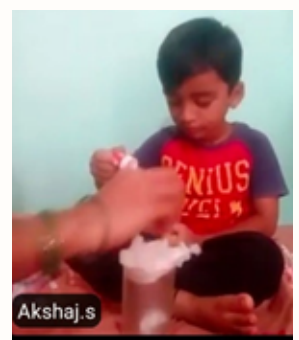

Shiksha kindergartners did experiments to find out what causes rain by dropping water on the bundle of cotton as clouds. It was worth capturing their joy when they watched water dropping down once the cotton was full of water.

# Pre Nursery Kids- Learn while playing

The best way of learning is while playing and that's what Shiksha is known for. Be it offline or online we don't compromise on the fun part of learning, which is very evident with the various motor skill activities conducted online. kneading of dough, shifting of grains, sprinkling of rava or tearing of paper were such fun activities which our kids eagerly wait for.
